#### b. The State agency conducts studies (provide date of most recent study: 8/1/2020) of the cost-effectiveness of local agency operations that examine:

- ☒ Location and distribution of local agencies in proportion to participants/potential eligibles
- ☒ Clinic procedures to optimize participant access/service (Patient Flow Analysis, etc.)
- ☒ Staff-to-participant ratios and related staffing analyses
- ☒ Comparative analyses of local agency/clinic costs
- ☒ Other

**ADDITIONAL DETAIL: Organization & Management Appendix and/or Procedure Manual (citation):**

The State Agency along with the Office of Child and Family Services reviews on a continuous basis the cost-effectiveness of local agency operations. This is done through various committees, Leadership Team, each time a person resigns a position and quarterly time study reviews are analyzed. In addition at each ME time is analyzed against participation to assure staffing is adequate to serve the population.

See Affirmative Action Plan Appendix E Section 3 IV Organization and Management

Analysis of staffing and effectiveness of the program is reviewed at each ME and monthly through the 798 reporting process and our 100% time study allocation process. In addition we are completing a total review of the Office of Child and Family Services this next year to determine a more cost effective method for the delivery of WIC Services. The RFP for a Project Manager has been released with a potential start date of October 1, 2020. We anticipate this review and implementation of new methods to be phased in over a 2-3 year period of time.

The WIC Program has been offered to all counties in the State. The expansion effort was directed to and Programs were implemented in those counties identified as most in need, the neediest one-third first. Each county now has a Program or is served by a neighboring county (three counties are served in this manner). In 1987 a WIC Program was started on the Pine Ridge Indian Reservation which made the state complete in serving WIC in SD in all counties. A unique arrangement was entered into through a joint agreement between the Oglala Sioux Tribe, Indian Health Service and the Department of Health, WIC Program whereby all parties have a role in providing WIC to the reservation. Other clinics throughout the state have similar arrangements.

All counties are currently serving priorities I through VI. Priorities may be limited throughout the year based on funding. Further outreach efforts will be directed to reach those individuals in all counties most at risk, specifically pregnant women.
and infants.

A marketing plan has been developed for marketing the Program and increasing clients’ awareness of the Program (e.g., local newspapers free to the public, radio announcements and/or public service announcements). This is described under Program Availability. A needs assessment may be done to identify more than one agency in counties specifically where distances to travel to the Local Agency is a hindrance to several clients.

Since WIC has been implemented statewide, operations will be expanded in the neediest one-third to one half of the state according to the following:

Local Agencies with a minimum caseload of 100 in the top one-third to one-half of the Affirmative Action Plan will be assessed for expansion of outlying clinic sites, according to the potential eligible not being served and distance to travel/proximity of participants to the clinic site.

Documentation will be kept as to the reason an area of lower priority was chosen.

Selection of Local Agencies - The State Agency shall consider the following priority system which is based on the relative availability of health and administrative services, in the selection of local agencies:

a. First consideration shall be given to a public or a private nonprofit health agency that will provide ongoing, routine pediatric and obstetric care and administrative services.

b. Second consideration shall be given to a public or a private nonprofit health or human service agency that will enter into a written agreement with other agency for either ongoing or routine pediatric and obstetric care or administrative services.

c. Third consideration shall be given to a public or private nonprofit health agency that will enter into a written agreement with private physicians, licensed by the State, in order to provide ongoing, routine pediatric and obstetric care to a specific category of participants (women, infants, or children).

d. Fourth consideration shall be given to a public or private nonprofit human service agency that will enter into a written agreement with private physicians, licensed by the State, to provide ongoing, routine pediatric and obstetric care.

e. Fifth consideration shall be given to a public or private nonprofit health or human service agency that will provide ongoing, routine pediatric and obstetric care through referral to a health provider.
