

Food delivery and food instrument (FI) (*Food instrument* means a voucher, check, electronic benefits transfer card (EBT), coupon or other document which is used by a participant to obtain supplemental foods) accountability and control involve the production, issuance, redemption, and monitoring of automated and manual food instruments through retail systems and the delivery of WIC Program foods by non-retail methods, i.e., home delivery and direct distribution.

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. State agencies should consider the overarching authority, i.e., Stafford Act or provision(s) authorized by Congress, before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility through their procedure manual where applicable. Please note the State Plan Guidance is not intended to capture a description of waivers authorized by Congress with separate reporting requirements, i.e., the Families First Coronavirus Response Act (PL 116-127).

More recently, Executive Order (EO) 13988, "*Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation.*" was issued to all Federal Agencies. The EO set out policies that all persons are entitled to dignity, respect, and equal treatment under the law, no matter their gender identity or sexual orientation. The EO does not usurp section 17 of 42 U.S.C, as amended or applicable regulations. However, where appropriate, State agencies may update their policies and procedures to align with the contents of the EO.
